English food

Some people criticize English food. They say it's boring, tasteless (безвкусный), it's chips with everything and totally overcooked (переваренный) vegetables. The basic ingredients, when fresh, are so full of flavor (вкус) that British don't use sauces to disguise (изменять) their natural taste.

If you ask foreigners to name (назвать) some typically English dishes, they will probably say "Fish and chips" and then stop. It is disappointing (печально), but the truth is that there is no tradition in England of eating in restaurants, because the food doesn't need such preparation. English cooking is found at home. So it is difficult to find a good English restaurant with reasonable (обоснованный) prices.

In most cities in Britain you'll find Indian, Chinese, French and Italian restaurants. In London you'll also find Indonesian, Mexican, Greek... Cynics will say that this is because the English have no "cuisine" themselves, but this is not quite the truth.

- B1. English food is very diverse (разнообразный).
- B2. There are lots of English restaurants with reasonable prices.
- B3. England has no long tradition of eating in restaurants.
- B4. There are a few restaurants in the UK.
- B5. Chinese restaurants can be found in Britain.
- B6. The English don't have "cuisine" as cynics can say.
